

Experienced / Senior Sustainability Consultant

Are you someone who is keen to grow personally and help grow a business, with a thirst for knowledge and rigour in consulting, report writing and presentations?

Are you interested in developing specific solutions for clients?

Do you set excellence as your own benchmark in your work?

We are looking for an experienced team member with these attitudes and traits to join our Melbourne operation.

Low Impact Development (LID) Consulting are leaders in Environmentally Sustainable Development (ESD) and Waste consulting. We thrive on helping deliver better precincts, subdivisions, buildings, and organisations. We work to raise the bar with smart sustainable design and waste solutions, to create developments and organisations that work with our planet.

You will have experience working as an **ESD consultant in Australia**, with demonstrated experience in **NATHERS modelling, IES or Design Builder thermal and daylight modelling**, and **Sustainability Management Plans with BESS completion**. You must have a demonstrated commitment to building client relationships, and **self-learning**. You must be engaged by projects outside of the core experience requirements. Ideally you will have a qualification as a certified passive house assessor.

This position offers competitive remuneration, flexible work conditions and leave opportunities, a commitment to training and continued personal growth in our knowledge expanding industry, and the expectation you will be a key member of our tight knit team, with growing personal opportunity and responsibility.
